What Is ProStart®?

ProStart is a two year high school program that teaches kids culinary arts and restaurant management skills. The program is taught across the United States and Guam in over 1800 schools, reaching over 145,000 students.

ProStart is an industry-driven program that prepares students not only to enter the workforce, but to become successful industry leaders.

The Mississippi ProStart Invitational (MPSI) consists of two competitions – management and culinary. Each competition gives students the chance to showcase the skills they've learned in the ProStart program, either in the front-of-house or in the kitchen.

Management teams develop a proposal for the next hit restaurant concept and present it to a panel of industry judges. Their ability to think on their feet is tested as they quickly solve challenges managers face on a daily basis.

Culinary teams must prepare a three-course meal in 60 minutes, using only two butane burners with no access to running water or electricity. There is no room for error as they're evaluated on taste, skill, safety and sanitation.

Your contributions not only allow us to host the Mississippi ProStart Invitational, they also enable us to send our first place culinary and management teams to the National ProStart Invitational in Washington D.C. Thank you for investing in our Mississippi ProStart students and in the future leaders of our industry.
